Technical Information

IBC Eco-Friendly Wood Preservative

DESCRIPTION OF PRODUCT

A quality, water-based, wood preservative for use against wood-boring insects & wood-rotting fungi.

FIELDS OF APPLICATION

For use on wood out of ground contact and surface water contact. For use only as a Wood treatment.

FEATURES & BENEFITS

- Easy to use
- Economical
- Water-based

TYPICAL DATA/ TECHNICAL PROPERTIES

Form	Liquid
Colour / Appearance	Green/Clear/Brown
Hazard Class	Irritant.

APPLICATION PROCEDURE

Shake container well before use ensuring closure is firmly secured. All timber should be clean and reasonably dry before application and product applied when no rain is imminent. Apply liberally to all exposed surfaces by brush, spraying or dipping (paying particular attention to “end grain”).
Apply more than one coat to intensify colour.

COVERAGE

Product will give good coverage per litre but actual results will depend upon porosity of the treated substrate, desired colour intensity etc. (as a guide one litre should cover approx 8-12 sq. m of timber)

PACKAGING

IBC Eco-Friendly Wood Preservative is available in 25Lt and 210Lt units

I.B.C. Limited, Unit 143, Industrial Estate, Baldoye, Dublin 13.

Technical Information

STORAGE

Store in dry conditions out of direct sunlight. Protect from frost and do not use in freezing conditions.

WATCHPOINTS

Do not spray in windy conditions.

Accidental spillages on plants, clothes etc should be promptly washed off to avoid staining

When using do not eat, drink or smoke.

Remove or cover all food stuff before application.

Do not apply to surfaces on which food is stored, prepared or eaten.

Cover water storage tanks before application.

EQUIPMENT

Health & Safety

For full information on Health & Safety matter regarding to this product the relevant Health & Safety Data sheet should be consulted.

The following general comments apply to all products. As with all chemical products, care should be taken during use and storage to avoid contact with eyes, mouth, skin and foodstuffs, (which may be tainted with vapour until the product is fully cured and dried). Treat splashes to eyes and skin immediately. If accidentally ingested, seek medical attention. Keep away from children and animals. Reseal containers after use.

Spillage

Chemical products can cause damage and should be cleaned up immediately.

Disclaimer

The information given here is true, represents our best knowledge and is based not only on laboratory work, but also in field experience.

However, because of numerous factors affecting results we offer this information without any guarantee and no patent liability is assumed.

All products should be used in accordance with the Manufacturer's instructions. No responsibility can be taken by the manufacturer where conditions of use are beyond our control.

It is the responsibility of the user to obtain the most up-to-date datasheet, which supersedes all previous literature.

For additional information or questions, please contact the I.B.C. Technical Department.
