

the right chemistry

We have segmented our full product offering into the product groups shown below. Should your particular requirements not be included here, please call us on +353 (0) 1 832 10 05, or email your inquiry to sales@ibcltd.net

Structural Waterproofing:

- Sodium Bentonite
- Bituminous
- Cementitious
- Polyurethane
- Re-Injectable Hose Systems

Concrete Repair:

- Epoxy, Cementitious, Polymer Modified and Polyester Structural Repair Mortars.
- Adhesive / Bonding Agents
- Carbon Fibre Structural Strengthening System
- Fairing/Levelling Mortars
- Carbon Protection Coatings
- Corrosion Inhibitors

Flooring:

- Epoxy, Polymer Modified, and Cementitious Screeds.
- Fast-track Flooring Systems
- Epoxy Coatings
- Acrylic Coatings
- Polyurethane Coatings
- Dry-Shakes
- Fast Track Floor Repair Products
- Temporary Protective Peelable Coatings
- Shrink Compensated Grouts

Plastering and Rendering:

- Liquid Waterproofers
- uPVC Beading
- Reinforcement Mesh
- Bonders and Sealers
- Fairing Coats
- Water Repellents

Damproofing and Remedial:

- Injection Systems
- Drainage Membranes
- Waterproof Coatings
- Water Repellents

Universal:

- Mortar and Concrete Admixtures
- Wood Preservatives
- Sealants and Adhesives
- Protective Peelable Coatings
- Surface Coatings and Sealers
- Colour Pigments

- Damp-proofing & Remedial
- Injection Systems
- Drainage Membranes
- Waterproof Coatings
- Water Repellents

the right chemistry

the right chemistry

Bright Sparks!

IBC is the leading, Irish-owned manufacturer and distributor of construction chemicals.

At IBC we love the spark of new ideas and creating the right chemistry for our clients. Our technical experts combine the best elements of knowledge, experience, products and customer support to invent or create successful construction solutions.

Covering all the angles

IBC is at the cutting edge of construction techniques. You know best the issues affecting your work, so we work with you to discover your precise requirements. Together, we develop targeted, innovative approaches to make that breakthrough.

We don't put round pegs in square holes

With IBC, you get a tailor-made solution. We use our knowledge, experience and international reach to promote solutions, not products. Through our international supply network, you can benefit from entire product ranges and global R&D capabilities.

Speaking your language

Our people skills are just as impressive as our technical know-how. With over 30 years of experience, and national coverage, we guarantee an excellent customer service relationship.

IBC, the right chemistry

Combining the best mix of products, knowledge, experience and customer support.

Injection Systems

Dryzone

Water repellent crème used for the treatment of rising damp in masonry.

DPC Injection System

Chemical Damp-proofing injection agent for rising damp in masonry.

A Range of Polyester, Epoxy & Cementitious injection resins for plugging water leaks in Concrete and Masonry

Drainage Membranes

Oldroyd XV20

Cavity drain membrane for waterproofing and or drainage of basement floors and ground gas protection e.g. methane and radon.

Oldroyd XV20 Green Extra

20mm perforated membrane drainage system.

Oldroyd XS

Damp-proofing membrane for floors.

Oldroyd XP

A studded polypropylene waterproof membrane with a special mesh welded to one side that allows plaster to bond to the membrane.

Waterproof Coatings

MaxSeal

Cement based waterproof coating for concrete and masonry.

MaxSeal Super

Cement based waterproof coating with crystallisation and osmotic properties.

MaxSeal Flex

A high performance two component flexible waterproof coating.

MaxPlug

Quick setting hydraulic mortar for stopping leaks.

Water Repellents

Maxclear D

Transparent silicone water repellent for traditional or limestone facades.

Maxclear

Clear siloxane water repellent.

Wood Treatments

Fungicide/Insecticide

Available both in concentrated liquid, gel or tube.

Eco-F: Wood Preservative

A high quality, colour fast, water-based wood preservative.

Cleaners & Bonders

Fungicidal Wall Solution

An aqueous fungicidal solution for treating and removing fungi and other growths such as moss and mildew from masonry and other common construction materials.

SBR

Styrene-butadiene co-polymer latex specially designed for use with cementitious mixes. For use in concrete repair, bonding, floor screeds, waterproofing and tanking.

PVA

White opaque non-toxic PVA emulsion used as a bonder, sealer and adhesive.

Damp-proofing & Remedial

Injection Systems

Drainage Membranes

Waterproof Coatings

Water Repellents

Wood Treatments

Cleaners & Bonders

In conjunction with our supply partners Drizoro from Spain and Safeguard from the UK, IBC offer a full range of Damp-proofing and Remedial products, that meet all relevant European Standards.

Whether your requirement is for a simple product to prevent water ingress into a building, or for the latest technology available for the injection of a DPC system into a building, IBC have the technical knowledge and the products for the perfect solution.

Our Partners

Safeguard Europe Ltd. is a UK-based company specialising in providing damp-proofing and waterproofing solutions for the construction industry. All products are manufactured under an ISO9001 quality control system, audited by the BSI. Safeguard has grown to become a market leader in the UK and now exports throughout the world.

Established in 1977, DRIZORO supplies specialty mortars and systems designed for flooring and decorative finishes. DRIZORO's Headquarters, Production and R&D facilities are based in Madrid, Spain, and from there, the international division provides technical assistance to customers in more than thirty countries worldwide.
